To Universal Travellers

Dear George

I am writing this to you and your company to compliment you on the way you have conducted our Travel arrangements.

Our first trip: Germany and London for my husband and myself. This trip was amazing.

Second trip: New Zealand and Australia was a bit more complicated with my daughter and her husband joining my husband and myself. My son in-law and daughter stayed in Australia for a few days and then joined us in New Zealand. My son in-law flew home to SA earlier and my daughter, myself and my husband went to Australia. I decided to come home early and flights had to be changed, upgrades, as well as car hire etc. To have my children with me on this trip, made it very special.

Third trip: Cambodia – Hong Kong and numerous ferries for my daughter to visit her husband on a film shoot. Very happy to see one another.

All of the above bookings were handled in a most professional manner. No hitches booking in at the many airports, even our excess baggage went without any complications. All good at the various passport control points – fantastic – when this goes wrong it can ruin your holiday.

I would also like to thank you for your honesty with regard to the pricing of our various trips. We got comparative prices from a number of other travel agents and Universal Travellers was cheaper on all three of our above mentioned trips. Thank you!! Travel is expensive and to save on flights is a bonus.

All said, thank you to Universal Travellers and to the man himself, George you are a star and we will most definitely use you in the future for all our travel arrangements.

Lisette Withers
